

G2 Ops, Inc. (G2 Ops) Embraces ChatGPT Team and Ask Sage to Drive Innovation and Enhance Productivity

Virginia Beach, VA, USA (16 October 2024) – G2 Ops, Inc. (G2 Ops), a leader in engineering solutions for defense and commercial sectors, announces the integration of two advanced AI platforms—ChatGPT Team and Ask Sage.

With **ChatGPT Team**, G2 Ops is improving how employees access critical information and collaborate on complex projects. The platform provides faster, AI-driven insights into internal processes, best practices, and technical documentation, allowing for more agile decision-making and collaboration across the enterprise. These capabilities are especially valuable as G2 Ops continues to support mission-critical systems for defense and government customers.

G2 Ops is also leveraging **Ask Sage**, a secure generative AI platform authorized to process Controlled Unclassified Information (CUI). Ask Sage provides real-time data analysis and secure processing workflows, ensuring sensitive data is handled with the highest level of security and compliance. The platform automates the generation of compliance documents and integrates with data lakes for large-scale, secure data analysis, significantly reducing manual efforts.

A statement from our Senior Vice President of Enterprise Engineering and AI Strategy:

"The integration of ChatGPT Team and Ask Sage is a pivotal step in our digital transformation journey at G2 Ops. By incorporating AI into our Model-Based Systems Engineering (MBSE), agile software development, and back-office operations, we are streamlining workflows, enhancing collaboration, and driving faster, data-driven decisions across the organization. This allows us to remain agile and deliver innovative solutions more efficiently."

Dr. Corren McCoy, Senior Vice President of Enterprise Engineering and AI Strategy at G2 Ops

The adoption of ChatGPT Team and Ask Sage is more than just a technological upgrade—it is a strategic evolution for G2 Ops. By accelerating decision-making, automating compliance, and enhancing security, G2 Ops is reshaping how defense and commercial sectors think about operational efficiency and resilience. These advanced AI tools provide our teams with unprecedented agility, ensuring we remain a leader in providing cutting-edge solutions for our nation's most pressing challenges.

Through AI-driven capabilities, G2 Ops is poised to anticipate and address the needs of tomorrow. Our integration of these platforms underscores our commitment to continuous innovation, cementing our role as a trusted partner to our customers and a trailblazer in the industry. G2 Ops is excited to leverage AI to make a tangible impact in both the defense and commercial sectors, driving our mission forward with unparalleled precision and security.

G2 Ops is a certified Woman-Owned Small Business (WOSB) led by an executive staff known for providing innovative solutions to solve our nation's most complex engineering challenges. G2 Ops has been named to the Inc. 5000 list of America's fastest growing companies each of the last 7 years (2018-2024) and has locations in Arlington, VA, Virginia Beach, VA, and San Diego, CA.
