G2 Ops Secures NAVWAR 5.0 System-of-Systems Engineering and Cybersecurity Engineering Contract

Virginia Beach, VA, USA (19 February 2025) – The Naval Information Warfare Systems Command (NAVWAR) Office of the Chief Engineer (CHENG) (NAVWAR 5.0) has awarded G2 Ops a $156 million contract for Technical Authority and Certification Authority System-of-Systems Engineering and Cybersecurity Engineering Support Services.

Advancing the Navy's Digital Engineering Capabilities

G2 Ops will provide Model-Based Systems Engineering (MBSE) expertise to support the CHENG in defining, developing, and sustaining the U.S. Navy's assured information warfighting platforms. Our experienced team will ensure that our work in digital engineering, cybersecurity, and systems integration aligns with mission priorities, enhancing overall effectiveness.
Bob Gregorio, President of G2 Ops, stated:

"As part of this initiative, G2 Ops' seasoned systems engineering professionals will deliver mission-focused services and solutions to drive the Navy's Digital Engineering transformation. Key areas of focus include governance, ontology, requirements management, data collection, system integration, risk assessment, and compliance verification."
A Commitment to Innovation and Excellence

G2 Ops CEO Tracy Gregorio added:

"As a small business, G2 Ops is honored to compete for this large-scale award. This opportunity allows us to showcase the innovation, efficiency, and strategic value small businesses bring to the Navy. It further demonstrates the confidence the Navy has in its small businesses in delivering cutting-edge solutions that directly address DoD priorities."

Strengthening NAVWAR Partnerships

A final word from G2 Ops CBO Kevin Esser:

"This award reinforces G2 Ops' role as a key NAVWAR partner and expands our ability to enhance the capability and effectiveness of the U.S. warfighter. We look forward to continuing our collaboration with the Department of Defense and delivering mission-critical engineering and cybersecurity solutions that support its evolving operational needs."

G2 Ops leverages over a decade of experience integrating Systems, Cybersecurity, and Software Engineering techniques to provide solutions to a growing list of Government and private customers. We combine cutting edge tools with innovative engineering practices, data analytics, and risk algorithms that enhance visibility into complex infrastructures, optimizing resiliency in system design and operations.

G2 Ops is a woman-owned small business led by an executive staff known for providing innovative solutions to solve our nation's most complex engineering challenges. G2 Ops has been named to the Inc. 5000 list of America's fastest growing companies each of the last 7 years (2018-2024) and has locations in Arlington, VA, Virginia Beach, VA, and San Diego, CA.
