

## **G2 Ops Awarded OASIS+ Contract for Technical and Engineering Services**

Virginia Beach, VA, USA (5 February 2025) – G2 Ops is pleased to announce its selection for the U.S. General Services Administration’s One Acquisition Solution for Integrated Services Plus (OASIS+) Total Small Business contract. This award grants G2 Ops additional bidding opportunities for task orders within the OASIS+ Technical and Engineering domain.

The streamlined OASIS+ network of multi-award contracts aims to fulfill federal agency procurement requirements for service-based solutions, aligning superbly with G2 Ops’ own 2025 strategic vision to achieve their clients’ most ambitious goals via secure and scalable service delivery.

G2 Ops is especially pleased to receive recognition as an industry leader and trusted partner within the Technical and Engineering domain. The additional opportunities to be granted by OASIS+ will further expand their strong portfolio of Model-Based Systems Engineering (MBSE), digital transformation, and Cybersecurity analytics capabilities.

Any government agency may use OASIS+ to procure services, with no contract ceilings or award caps; therefore, this development places G2 Ops’ innovative and efficient solutions within reach for a host of additional customer bases. Additionally, the ability for these agencies to prescribe a variety of potential cost types per task order allows them to benefit from G2 Ops’ services while conveniently meeting their own pricing expectations and requirements.

Ultimately, this selection ensures that G2 Ops may continue to advocate for and serve its nation in pursuit of security, efficiency, and excellence.

Kevin Esser, Chief Business Officer (CBO) of G2 Ops, stated:

“With the Best-In-Class designation, G2 Ops is looking forward to using OASIS+ as a way for our customers to efficiently access our expertise and innovative digital transformation capabilities. It offers a streamlined and low-cost procurement process that will help us meet growing demand signals and meet stakeholder challenges quickly and cost-effectively.”

*G2 Ops leverages over a decade of experience integrating Systems, Cybersecurity, and Software Engineering techniques to provide solutions to a growing list of Government and private customers. We combine cutting edge tools with innovative engineering practices, data analytics, and risk algorithms that enhance visibility into complex infrastructures, optimizing resiliency in system design and operations.*

*G2 Ops is a woman-owned small business led by an executive staff known for providing innovative solutions to solve our nation’s most complex engineering challenges. G2 Ops has been named to the Inc. 5000 list of America’s fastest growing companies each of the last 7 years (2018-2024) and has locations in Arlington, VA, Virginia Beach, VA, and San Diego, CA.*
