

## **G2 Ops Selected for Second 2025 OASIS+ Contract**

Virginia Beach, VA, USA (16 June 2025) – G2 Ops is pleased to announce its selection for the U.S. General Services Administration's One Acquisition Solution for Integrated Services Plus (OASIS+) Women-Owned Small Business Indefinite Delivery/Indefinite Quantity (IDIQ) contract. This award grants G2 Ops additional opportunities for task orders within the Technical and Engineering, Research and Development, and Intelligence Services domains.

This selection arrives quickly after G2 Ops was selected for an OASIS+ Total Small Business contract in February 2025, focused on the Technical and Engineering domain.

The streamlined OASIS+ network of multi-award contracts aims to fulfill federal agency procurement requirements for service-based solutions, aligning superbly with G2 Ops' own strategic vision to achieve their clients' most ambitious goals via secure and scalable service delivery.

These awards recognize G2 Ops as an industry leader and trusted partner within several domains. The additional opportunities to be granted by OASIS+ further expand their strong portfolio of innovative R&D, Model-Based Systems Engineering (MBSE), and Cybersecurity analytics capabilities.

Any government agency may use OASIS+ to procure services with no contract ceilings or award caps; therefore, these developments place G2 Ops' innovative and efficient solutions within reach for a host of additional customer bases. Additionally, the ability for these agencies to prescribe a variety of potential cost types per task order allows them to benefit from G2 Ops' services while conveniently meeting their own pricing expectations and requirements.

Ultimately, these selections ensure that G2 Ops may continue to advocate for and serve its nation in pursuit of security, efficiency, and excellence.

*G2 Ops leverages over a decade of experience integrating Systems, Cybersecurity, and Software Engineering techniques to provide solutions to a growing list of Government and private customers. We combine cutting edge tools with innovative engineering practices, data analytics, and risk algorithms that enhance visibility into complex infrastructures, optimizing resiliency in system design and operations.*

*G2 Ops is a woman-owned small business led by an executive staff known for providing innovative solutions to solve our nation's most complex engineering challenges. G2 Ops has been named to the Inc. 5000 list of America's fastest growing companies each of the last 7 years (2018-2024) and has locations in Arlington, VA, Virginia Beach, VA, and San Diego, CA.*
