

G2 Ops Makes the Inc. 5000 List of Fastest-Growing Companies for the Ninth Year in a Row

Virginia Beach, VA, USA (11 August 2026) – G2 Ops, an industry leader in model-based systems engineering, digital engineering, and mission-focused digital solutions, has been named to the prestigious Inc. 5000 list of the fastest-growing companies in the nation for 2026. This year's recognition marks the ninth consecutive year that G2 Ops has earned a spot on the list – a rare milestone demonstrating consistency through changing economic environments, defense budget shifts, and evolving market demands.

The Inc. 5000 ranks companies according to percentage revenue growth over a three-year period, evaluating performance from 2022 to 2025. Inc. has published a list of the fastest-growing companies every year since 1982, with several past honorees going on to become household names like Microsoft, Fitbit, and Oracle.

From its offices in Virginia Beach, Arlington, and San Diego – and its customer locations across the country – G2 Ops delivers mission-critical engineering and advanced technology solutions to the U.S. Navy, the Department of Defense (DoD), and government partners. The company's continued expansion driven by its 165 engineers, analysts, and operations professionals underscores a relentless commitment to solving high-stakes problems where there is zero margin for error.

"Earning a spot on the Inc. 5000 for nine consecutive years is a direct reflection of our people and their determination to solve hard problems for the fleet," said Tracy Gregorio, CEO of G2 Ops, Inc. "To sustain growth over nearly a decade means we grew through budget sequestration, three continuing resolution cycles, and a pandemic. That is only possible through a team of professionals who show up every day committed to technical excellence and innovation. I am deeply grateful to our team for their dedication, and to our Navy and DoD customers who trust us as their digital engineering partner when the stakes are highest."

Tracy Gregorio, CEO of G2 Ops, Inc.

The 2026 class of the Inc. 5000 represents a cornerstone of entrepreneurial achievement, with honorees generating a cumulative \$385 billion in revenue in 2025 while driving job creation and technological advancement across critical industries.
